

BOOK LAUNCH
Evolving Rogerian Nursing Science:
John R. Phillips'
Unique Contributions

This anthology offers a comprehensive collection of visionary works by Dr. John Phillips, the foremost Rogerian scholar of our time. From his pioneering theory of pandimensional awareness/integral presence to his new concepts and terminology, this anthology provides a wealth of knowledge essential for students, instructors, and scientists of the Science of Unitary Human Beings. Delve into the far reaches of Rogerian nursing science with this invaluable resource and stay on top of the latest advancements in the field.

Violet Malinski
Committee Chair
Society of
Rogerian Scholars

Marlaine Smith
President
Society of Rogerian Scholars

Peggy Chinn
Editor Emerita
Advances in Nursing
Science

Join us for an enriching literary celebration at the much-anticipated book launch of John Phillips' remarkable anthology! Guiding us through the event as emcee, Violet Malinski. Marlaine Smith will share captivating insights about the Society of Rogerian Scholars, shedding light on the fascinating intersections between literature and scholarship. Additionally, we are honored to welcome Peggy Chinn, Editor Emerita of *Advances in Nursing Science* who will skillfully delve into the anthology, offering her expert evaluation while posing thought-provoking questions to the brilliant author, John Phillips.
